Table of Contents

Fan-forced Heaters

Find the right fit for you - fan-forced heaters are great heating solutions for residential areas including laundry rooms, vestibules, bathrooms, and even large foyers. Although all electric heat is 100% efficient, you will see some energy savings with a fan-forced heater because it takes very little time to heat a room. Fan-forced heaters circulate the air throughout the room which results in the space warming much quicker than with other room heaters. For versatility and efficiency, choose fan-forced heat.

Baseboards

Electric baseboards have been an innovation that has continued to thrive in the heating industry over decades. This traditional and efficient heating solution is here to stay, and we have a multitude of varieties from which to choose. Replace existing baseboard heaters with improved baseboard technology that you can rely on to keep your loved ones warm in the cold months. Installed out of sight, tucked away neatly on the floor and against the wall, you will almost forget your heater is there with the quiet operating features. See how the products that you have depended on for years are advancing and growing alongside you and your family.

Panel Convectors

Warm up quickly and quietly with an electric panel convector, as it circulates hot air through the whole room. Convection heating relies on the cycle of cool air being heated inside the panel, rising, and pushing cooler air down to be heated. Choose from a series of sleek designs and innovative functions to opt into an alternative to radiators. It is easy to warm up to the idea of supplemental heat with the safe and easy-to-use Panel Convector.

Outdoor Heat

IR heating is perfect for homeowners, business owners, landlords, designers or builders looking to enhance an outdoor entertaining space with a premium comfort product that is complimentary to modern design. There are three ways to install an IR heater from Dimplex: hang it on the wall; hang it from the ceiling; or attach it to a floor stand. All units must be hardwired and are protected from tough natural elements for long-lasting durability. Stay warm during any season with IR heat.

Specialty

Browse through a variety of specialty heaters for spaces less commonly thought of, but just as well used. Whether you are keeping equipment from freezing overnight or looking for some warmth on your toes in the morning, our selection of specialty heaters has you covered. We have frost protection/pumphouse, ceiling mounted, under-cabinet, garage and workshop heaters – for those hard-to-fit places that need heat too. There is no thinking twice about keeping warm this season with our wide selection of specialty heaters.
